TinyGo

experience

- 2023–Now **GopherBadge - Self-employed** Cartagena, Spain
Technologist for hire
I provide consulting on product development and embedded systems engineering, specialized in Go, PHP, JavaScript, IoT integration and API design. One example of my work might be the Gopher Badge, which is designed to be an educational tool for learning about electronics and programming, as well as a platform for building projects and prototypes.
- 2018–Now **SocialPay** Barcelona, Spain
Senior Software Developer
I'm specially involved in the development of the payment management layer of our platform, which includes a dashboard panel for our clients and ourselves, and an API. I also design, develop and help with other projects of the company.
My responsibilities are, including, but not limited to:
 - Create multiple backend services and APIs for diverse tasks in Go and PHP
 - Integrate with payment and order processors, as well as banks
 - Plan and configure system resources in AWS and Azure, using Docker
- 2011–2017 **Osclass SL.** Barcelona, Spain
Senior Software Developer
Developed Osclass core software (a CMS for classifieds websites) and plugins using our own PHP MVC framework, MySQL and Javascript, as well as the tools and services needed for building, deploying and managing releases. Conceived and helped in the development of the marketplace <http://market.osclass.org>, Osclass Free service (SaaS) and other services around the Osclass ecosystem using several technologies and tools (Go, Silex, MySQL, Javascript,...).

awards

- 2008 **Certificate of Distinction because of having been placed in the Dean's List**
College of Arts and Sciences, East Tennessee State University
Awarded to student with exemplary scholastic performance.

education

- 2008–2009 **Masters in Mathematics** East Tennessee State University, Tennessee, U.S.A.
- 2007–2008 **Masters in Mathematics** Vrije Universiteit Brussels, Brussels, Belgium
- 2004–2007 **Bachelor in Mathematics** Universidad de Murcia, Murcia, Spain
